Product Data Sheet

UD10KP-C, Front

UD10KP-C, Front

10-Device iPad, Chromebook, and Tablet Lockers

Basic Features

• Use the base drawer to store peripherals, thumb drives, extra cables, etc.

• Charges your devices, too—each cube includes a UL® approved power strip with a 15-amp circuit breaker.

• The laminated top on the cart provides a smooth work surface.

• Create custom configurations—simply stack lockers, then add optional drawers and a laminate top. Lockers and drawers quickly attach to each other using only four screws.

• Without casters, the maximum recommended height when stacking lockers and drawers is 82" (208 cm). With casters, do not stack more than 2 lockers. Casters attach directly to the locker body or drawer.

• Office gray finish.

NOTE: The picture at left shows one locker, one drawer, a laminate top, and casters. Other configurations are possible. Please contact Black Box Technical Support at 724-746-5500 or info@blackbox.com for help in choosing a configuration that suits your application.

UD10KP Front

UD10KP-LD, Rear, populated

Overview

• Store and charge devices safely and securely.

• Ideal for classrooms.

• Has a removable locking rear access panel for easy cable management.

• Each locker holds 10 devices. Dividers keep devices upright and protected from each other.

• Warranties: Locker: Guaranteed for life!
    Power Strips: 3 Years

10-Device iPad, Chromebook, and Tablet Lockers
