Interactivity with no Strings Attached

Interact Anywhere, Anytime

The WT-1 takes the functionality of an interactive whiteboard and places it wirelessly in your hands. Now you can comfortably control your lessons and software applications up to 30 feet away from your computer. The interactive tablet provides easy access to teaching and presentation tools powered by StarBoard Software.
Personalize your Lessons

Have you ever had any students that wanted to participate, but were a little timid? Keep your class involved by passing around the wireless tablet and see shy students blossom into confident participants. Continue to engage them with multi-media resources, interactive activities, and a variety of digital tools.

Designed for Teaching

Skip the frustration of setting up a wireless connection. The WT-1's RF technology takes the guess work out of pairing devices and allows more time for teaching. Customize your experience with 16 programmable function buttons to make the technology fit your curriculum and teaching style.

Features

❶ Power button
❷ LCD indicator
❸ Function key area
❹ Tablet active area
❺ Pen holder/Wireless receiver
❻ Page up/page down buttons
❼ Volume control

Dimensions

MODEL	ACTIVE AREA
