PolyVision®

A Steelcase Company

Interactive Whiteboards now with 3M's Super Close Projection Technology!

3M™ Super Close
Projection System

3M

PolyVision® has teamed up with 3M™ to provide an integrated solution combining 3M's Super Close Projection technology with any PolyVision Walk-and-Talk™ or TS Series interactive whiteboard. This convenient package provides a complete whiteboard solution ideal for any learning or working environment!

- Conveniently packaged solution combining interactive whiteboard with projector

- Available with either Walk-and-Talk or TS Series Interactive Whiteboards

- Take advantage of short-throw projection for reduced glare and easy installation and maintenance

- Optional folding wall mount allows you to fold the projector back against the wall when not in use

- Bring audio into your session through the integrated speakers in the wall mount, right at the front of the room

- Unique I/O module allows a wide variety of audio visual options (see spec sheet for more information)
