 - Built in lateral shift on wall plate for the FPS-300
 - Integrated cable management
 - Great option for educational use in the classroom or corporate training
 - VESA mounting patterns

The FPS Flat Panel Lifting Mount series provides a simple stationary or mobile wall mounted unit that utilizes a motorized lifting and lowering system to help gently guide the display to the desired height. Mounting over the top of a whiteboard, the FPS Series can be easily adjusted to the desired vertical position and provide a great tool for interactive presentations or classroom learning environments. The FPS-300 also easily glides the display across the whiteboard and rolls the display into place.
