JTouch Interactive Displays

Connecting the JTouch touchscreen display to your notebook creates a bright, colorful touch computing experience that engages audiences in classrooms and beyond. It's the group-work device that fits your meeting room and your budget.

Key Features

- Giant, high resolution touch display for a great price
- Incredibly sharp 4K resolution on 70 and 85-inch models
- 40-, 57-, and 65-inch models offer bright, vivid 1080p HD resolution
- Run all your apps, even the older ones, with touch
- Accurate and responsive touch overlay with multi-touch capability

Projected Capacitive Touch (PCAP)

The ultra-responsive and sleek bezel-less technology found in tablets and smart phones is now in most JTouch Whiteboard models. Get more touch points for fingers, styluses and even medical-grade gloves.

Bring Your Display to Life with 4K

Boost the impact of your content and make every meeting or presentation more engaging, informative, and memorable with 4K.

- More pixels mean more detail and depth for amazingly life-like images
- Enhanced color rendering
- Presenters benefit from crisp, clear images up close
- Audiences enjoy vibrant, detailed images, even from the back of a conference room

Full Touch Control

Display your PC, Mac, or Chromebook via HDMI or VGA & control it from the display via touch using a USB cable.

- Extend the reach of your computer's USB ports with easily-accessible USB ports on the display
- No calibration or special stylus means it's quick and easy to use with just your fingertips

High Brightness and HD Clarity

JTouch helps you get your message across and connect with your audience with incredible brightness, color and clarity. With 1080p and 4K resolution, your images, text and video will be seen and enjoyed even in large spaces with high ambient light.

With Whiteboard

Stop taking photos of your old dry-erase board & step up to a digital whiteboard. You'll never lose an idea & your meetings will be more efficient & productive.

Draw, Write, & Capture Notes

- Save whiteboard notes electronically
- Create a whiteboard on a multi-screen canvas, with room for free-form drawings, diagrams, and notes
- Use it with fingers or a stylus
- Write or draw with complete collection of digital pens, highlighters, shapes, lines and colors
- Paste images on whiteboard
- No calibration required
- No lamps or filter to replace
- View and annotate over PowerPoint, images, Word and more.

Built into INF4030/p, INF6502WB/p, INF6502WBAG/p, INF7002e and INF7002WB

Easily Upgrade Standard JTouch Models to Whiteboard Functionality:

Android Whiteboard Module

With the Android Whiteboard Module (INA-AWB), your JTouch becomes a digital whiteboard that you can tailor to your organization's business, education or entertainment needs – including access to nearly endless applications in the Google Play store.

BigNote Whiteboard Software

Add BigNote software (INS-BIGNOTE) to your Windows notebook or tablet and your JTouch becomes a full-function interactive whiteboard.

“Overall the JTouch is a jack of all interactive trades – it has the ability to draw in a rainbow of colors, display smooth video and let you connect without needing a new app.”

—Brian Nadel, Computerworld

Go Wireless with LightCast Technology

Enhance your presentation, teamwork, and content sharing capabilities when you unlock the built-in wireless connectivity of your JTouch display.

Key Features

- Connect mobile devices and share content wirelessly with LightCast functionality
- Access the Internet with a built-in web browser
- View and present documents, videos, and photos

Wireless Casting

Adding the LightCast Key to your JTouch lets you easily connect and share content from nearly any computer or mobile device. You'll make meetings, lessons and teamwork more efficient, engaging and easy.

LightCast technology works seamlessly with all your device's native protocols – use AirPlay (Mirroring mode) for Apple, and Miracast for Android or Windows.**

Use the InFocus LightCast Sender to cast using Chrome extension (works on Apple, Windows, or Chrome OS.)

Browse the Web

Access your favorite web online content without a connected computer.

- Quickly access the web, curriculum, and file sharing platforms
- Easy access to favorites/bookmarks
- Connect the display to your network via LAN or WiFi
- Annotate over the web

Document Viewer

View and present your files directly from the JTouch.

- Display Office files, like PowerPoint, Word, and Excel, as well as most photo and video file formats
- Easily annotate on files with digital pens, highlighters, and shapes
- Save and share annotated files after a meeting
- Draw your audience's attention with a built-in laser pen

"I use my iPad to cast live camera feed of what students have created to the JTouch.

–Mrs. Joy, 5th Grade School Teacher

LightCast Key

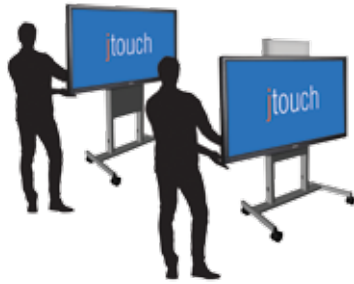

The LightCast Key unlocks your JTouch's wireless casting, whiteboarding capabilities, web browsing, document viewing and annotation, and wired LAN connectivity.

Accessories for JTouch Displays

Mobile Carts

- Move your JTouch around the room or around the building
- Integrated cable management with flexible covers to hide cables for a clean installation
- Smooth rolling casters for effortless positioning (2 locking casters)
- Height adjustment 4-6' (1.2-1.8 m)

Lift Case

Easily store, transport, and use a 40", 57", 65", or 70" flat screen display. Set up displays with only one or two people and be ready for use in less than 5 minutes.

- Full range of viewing heights
- Mounted multi-outlet surge protected power strip
- Shock-mounted lift mechanism
- Pivoting mount on 40" case enables portrait or landscape 40-inch display
- Integrated cable management system
- 2-piece clamshell locking lid
- Stable, yet portable with four heavy duty casters

Swivel Mount For 40-inch

Attach this heavy-duty mount to the 40-inch Floor Stand to rotate the JTouch display between portrait and landscape orientations.

- Up to 12 degrees of smooth pivot adjustment in any direction
- Includes 200x200 VESA adapter plate and tilt adapters that allow an additional 10 degrees of tilt
- Weight capacity: 50 lbs (22.7 kg)
- Black finish

Floor Stand For 40-inch

Easily display a 40-inch JTouch or other small thin display with this sturdy floor stand. Stabilizers prevent wobbling when using the touch screen.

- Three mounting heights
- Add optional swivel mount to rotate between portrait and landscape orientations
- Height adjustment: 4' - 6' (1.2 - 1.8 m)
- 200 x 200 VESA mounting pattern

LiteShow 4

Add the InFocus LiteShow 4 wireless presentation adapter to any base model display with a VGA or HDMI input to quickly and easily share data, audio, and HD video over a secure wireless connection

- Connect LiteShow 4 to your network to create a new, secure wireless access point
- On-board video decoding for fast, smooth playback
- Guests quickly connect with LiteShow USB drive
- Compatible with Windows 7, 8 & 10, Mac & iOS and Android mobile devices
- Connect and display multiple computers at the same time

Whiteboarding Solutions

Android Whiteboard

Connect it to your JTouch and turn it into a digital whiteboard, and get access to nearly endless applications in the Google Play store.

- Capture and save notes on a digital whiteboard with pens, highlighters, shapes and lines in multiple colors
- Whiteboard on a canvas that can be extended 10x in any direction
- Paste images or add useful custom backgrounds, such as a grid or calendar
- Add your favorite Android apps from the Google Play store
- No stylus or calibration required
- Connect to your display via HDMI
- Connect to your network via RJ45 or WiFi
- Add an optional wireless keyboard and mouse for extra convenience

BigNote Whiteboard Software

Add BigNote software to your Windows PC and your JTouch becomes a full-function interactive whiteboard.

- Pens, highlighters, shapes and lines in multiple colors
- Whiteboard on a canvas that can be extended 10x in any direction
- Annotate over any application and save the changes
- Capture all or part of your screen, then draw, save, and share
- Email files to meeting participants as JPG, PDF or BigNote's format
- Launch the BigNote feature you want to use with one click
- Files are interchangeable with InFocus Mondopad
