

**3-D ADJUSTABLE
HEIGHT FURNITURE**
for Improved Office Fitness

Corporate Wellness, REDEFINED

Keeping our workforce healthy pays dividends in higher productivity and lower healthcare costs. But let's face it: spending billions of dollars on free gym memberships and FitBit® giveaways is just "corporate wellness theater." Despite these measures, the rates of obesity, diabetes and ergonomic injuries among workers continue to rise, and we now know that "sitting disease" is a major culprit. The solution isn't an expensive ergonomic chair, encouraging workers to sit even longer. It's giving them the ability to stand or walk while continuing to get their work done and boosting their productivity.

Pioneering Innovation

Where others pioneered the science of ergonomics for seated computing tasks, iMovR pioneers ergonomics for the standing and walking worker. Our proprietary SteadyType™ keyboard trays — embedded in all of our ultra-rigid Omega desk models — allow users to type while standing or walking, without sacrificing speed or accuracy. Our Synapse Multi-Purpose and Conference Tables boost employee participation, morale, health and productivity in meetings.

Our flagship product, the ThermoTread GT Office Treadmill Desk, is the first of a new generation of active workstations designed to be optionally connected real-time to the cloud, and to a wide array of free software applications. At iMovR, we believe that connecting active office furniture to the Internet of Things is pivotal to accelerating their adoption by the mainstream. Only our products feature online "fleet management" software that can report ROI and reinforce the case for investing in the health of sedentary workers.

Quality, Reliability and Versatility

iMovR's products are brimming with advanced features, from high-performance lifting bases to our state-of-the-art, 3D-laminated surfaces. We also understand how important design aesthetics are to our customers, which is why we offer most of our products in eleven standard laminate colors and over sixty custom colors to match their existing decor. iMovR offers a broader range of adjustable-height office furniture than any other manufacturer, with affordable options for everyone from the call center to the executive suite.

ThermoDesk Upsilon™

The Most Compact Sit-to-Stand Desk Ever

The ultimate electric sit-stand desk for compact office spaces, the Upsilon is the only electric desk on the market that fits in a traditional 24"-deep workspace. Despite its small footprint, the Upsilon is a true powerhouse, designed for mission-critical reliability. Its dual motors can lift up to 360 pounds at a brisk pace of 1.3 inches per second. Its sub-41 decibel noise signature makes it, along with the UpTown and Olympus, the quietest desk on the market today.

The first standing desk designed specifically for compact spaces, the Upsilon is also the least expensive electric desk on the market. Its ample power, supreme reliability, super-low noise signature, ultra-durable 3D-laminated surfaces and low cost make it the ideal desk for call centers and small office spaces. Upsilon ships next-day, for those times when you need to add workstations yesterday.

Upsilon Desktops	42" x 23.5"	47" x 23.5"	59" x 23.5"
Solid Colors	\$568	\$588	\$628
Wood Grain	\$598	\$618	\$658

SPECIFICATIONS	
Height Adjustment	Two-button up/down controller
Adjustment Range	25" to 51"
Adjustment Speed	1.3" per second
Lift Capacity	360 pounds
Warranty	Lifetime on steel frame, 5 years on desktop, 2 years on lifting legs & electronics

ThermoDesk Ellure™

Premium Top Manual Desk

The ThermoDesk Ellure™ is the first height-adjustable desk to combine a low-cost, manual (crank) base with a premium table top, so you can enjoy the elegance of an extra-thick, ergonomically-contoured, 3D-laminated surface without the price tag of a top-end electric desk.

Despite its impressive 200 pound lifting capacity the crank action is smooth, easy and yet adjusts twice as fast as other, pricier crank desks. This extra lifting capacity allowed us to pair the Ellure base with thick 1-1/8" tabletops - the same ones we use on our Synapse™ Conference Table.

Ellure Desktops	42" x 30"	48" x 30"	60" x 30"	72" x 30"
Solid Colors	\$589	\$599	\$664	\$834
Wood Grain	\$619	\$629	\$694	\$884

SPECIFICATIONS

Height Adjustment	Easy turn crank
Adjustment Range	30-1/8" To 49-1/8"
Crank Speed	3 Turns per inch
Lift Capacity	200 pounds in motion, 390 pounds stationary
Warranty	Lifetime on steel frame, 5 years on desktop, 2 years on lifting legs

Omega Denali™

The Denali: An Ellure™ with Built-In SteadyType™

The Omega Denali combines our elegant, yet cost-effective ThermoDesk Ellure with our revolutionary SteadyType keyboard tray, built right in. The Omega desktop ensures optimal ergonomics for sitting, standing and walking modalities with its infinitely-adjustable angle setting that guarantees the most ergonomically neutral arm and hand positioning over the keyboard and mouse.

- SteadyType keyboard tray boosts typing speed and accuracy, and optimizes ergonomic comfort whether sitting, standing or walking.
- For treadmill desk users, SteadyType eliminates anchoring stresses (pressing down hard on the palms to maintain hand position over keyboard).
- Maximizes desk stability versus traditional keyboard trays by moving the “lever” of the tray from in front of the desk to near the center of lift.

Denali Desktops	42" x 30"	48" x 30"	60" x 30"	72" x 30"
Solid Colors	\$894	\$904	\$969	\$1,139
Wood Grain	\$924	\$934	\$999	\$1,189

SPECIFICATIONS	
Height Adjustment	Easy turn crank
Adjustment Range	30-1/8" to 49-1/8"
Crank Speed	3 Turns per Inch
Lift Capacity	200 pounds in motion, 390 pounds stationary
Warranty	Lifetime on steel frame, 5 years on desktop, 2 years on lifting legs

ThermoDesk UpTown™

The Most Customizable Desk in the World

No other electric height-adjustable desk on the market offers as many customizable features as the UpTown. Despite its brawny 360 pound lift capacity and quick 1.3"-per-second transit speed, the UpTown is also the quietest electric desk in the world, with a sub-41-decibel noise signature. With five tabletop widths, two top thicknesses, eleven standard tabletop colors (plus over sixty custom colors), and two base colors to choose from, the UpTown comes in 198 standard configurations.

Leave the dual, 3D-laminated grommet holes open to show off the look of natural hardwood, or select from several flush-mounted accessories that bring power and connectivity within easy reach. Our 72" and 83" Select Top configurations are ideal for "sit-stand-walk" setups giving you more than enough room to fit a treadmill and full-sized office chair side-by-side.

UpTown Slim (3/4" Top)	42" x 30"	47" x 30"	59" x 30"	71" x 30"
Solid Color	\$719	\$729	\$759	\$889
Wood Grain	\$749	\$759	\$789	\$939

UpTown Select (1-1/8" Top)	42" x 30"	47" x 30"	59" x 30"	71" x 30"	83" x 30"
Solid Color	\$749	\$759	\$814	\$984	\$1,014
Wood Grain	\$779	\$789	\$844	\$1,034	\$1,064

SPECIFICATIONS

Height Adjustment	Digital, with 3 programmable memory positions
Adjustment Range	25" to 51" (31" to 57" using the leg extension kit)
Lift Capacity	360 pounds
Warranty	Lifetime on steel frame, 5 years on all other components

"SteadyType" Keyboard Tray Options

The UpTOWN with Built-in SteadyType™ Keyboard Tray

The Omega Olympus combines our popular ThermoDesk UpTOWN with our revolutionary SteadyType keyboard tray, built right in. The Omega desktop ensures optimal ergonomics for sitting, standing and walking modalities with its infinitely-adjustable angle setting that guarantees the most ergonomically neutral arm and hand positioning over the keyboard and mouse.

- SteadyType keyboard tray boosts typing speed and accuracy, and optimizes ergonomic comfort whether sitting, standing or walking.
- For treadmill desk users, SteadyType eliminates anchoring stresses (pressing down hard on the palms to maintain hand position over keyboard).
- Maximizes desk stability versus traditional keyboard trays by moving the "lever" of the tray from in front of the desk to near the center of lift.

Olympus Desktop	42" x 30"	47" x 30"	59" x 30"	71" x 30"	83" x 30"

Wood Grain	\$1,054	\$1,064	\$1,119	\$1,309	\$1,339

SPECIFICATIONS

Height Adjustment	Digital, with 3 programmable memory positions
Adjustment Range	25" to 51" (31" to 57" using the leg extension kit)
Lift Capacity	360 pounds
Warranty	Lifetime on steel frame, 5 years on all other components

ThermoDesk Elite™

Precision Meets Elegance

Made in America to the highest manufacturing quality standards, the ThermoDesk Elite is the pinnacle of adjustable-height desk design. Conference-table-thick, 3D-laminated surfaces feature ergo-contouring and fully-laminated grommet holes for that natural hardwood look. Our 72" and 83" configurations are ideal for "sit-stand-walk" setups with a treadmill and full-sized office chair side-by-side.

Desks 42", 48", & 60" Wide

For Faster, Better, Healthier Meetings

Who doesn't hate sitting through long meetings? Customers consistently report that ever since switching to sit-stand tables their meetings are more productive and collaborative, not to mention healthier. The Synapse Multi-Purpose Table is perfect for daily team "scrum meetings." Its affordable enough to sprinkle throughout the company (e.g. cafeterias, cafes, open work areas and kitchenettes) in addition to conference rooms. It is also popular with hotels, resorts and conference centers, for both meeting rooms and variable-height catering presentations.

The Synapse Multi-Purpose Table has even found a home in the home as a table that can serve cocktails at height, be lowered for dining, used for board games, gift wrapping, school projects and so much more.

Multi-Purpose Table Top	30"x72"	36"x72"	36"x83"	36"x96"	42"x72"	42"x83"	42"x96"

Wood Grain	\$1,459	\$1,589	\$1,619	\$1,669	\$1,619	\$1,679	\$1,729

CONFERENCE AND MULTI-PURPOSE TABLE SPECIFICATIONS

Height Adjustment	Two-button controller (Up/Down)
Adjustment Range	25" to 51"
Travel Speed	1.7 inches per second
Lift Capacity	180 pounds at full travel speed - 490 pounds at slower travel speeds
Warranty	Lifetime on steel frame, 5 years on all other components

Synapse™ Conference Tables

The Synapse Conference Table adds dual power modules in the center of the table for longer meetings, where attendees might need to keep their mobile devices and laptops charged. It is otherwise identical to the Synapse Multi-Purpose Table.

Fast Charge Right at the Conference Table

The two electric modules included in our Conference Table provide two AC plugs, as well as two USB ports that each deliver the same amount of power as an iPad charger. These modules ensure meeting participants' ability to stay connected, charged and productive.

Standing Increases Table Capacity

Whether you like it cozy or comfy, you'll increase your conference table capacity by standing. Of course, actual capacity will vary depending on things like chair width and body size (think six linebackers vs ten fashion models).

Table Size	Sitting	Standing
30" x 72"	4	6
36" x 72"	6	8

Delivery Options

Delivery Times to US Lower 48 States:

Upsilon ships out the next business day after receipt of order, by FedEx Ground. All other products are made-to-order and shipped out within five to seven business days of order, by freight carrier. Allow five to seven business days for freight. Please contact us for shipping arrangements to other US territories and Canada.

Assembly Options:

We designed all our products to be easy to assemble, with excellent printed and/or video instructions, pre-drilled holes, and pre-assembled components. However, we also offer a factory pre-assembly option on all our products (excepting Upsilon) — a very popular feature with our customers!

Delivery Options:

Standard delivery is to the threshold (first covered space). Options are available for inside delivery to Room of Choice, and White Glove (Room of Choice plus removal of pallet and packaging materials). All White Glove deliveries are pre-assembled at the factory.

ThermoTread GT

ThermoTread GT Office Treadmill

iMovR is proud to introduce the ThermoTread GT – the first walking treadmill designed from the ground up to live in an office environment, not a gym. This is the next generation in treadmill desks: a brawny 3.0 horsepower motor and upgraded powertrain componentry, touch-screen LCD desktop console, stored user profiles and liability waiver click-wrap, and so much more. The ThermoTread GT is the only office treadmill with the ability to interact with personal performance tracking and corporate wellness software in the cloud (via optional CloudStation available 2016).

- The quietest, smallest, highest-permance walking treadmill ever
- Smartphone-like, touch-screen LCD desktop console
- Built to last: premium componentry and “future-proof” software updatability
- Ideally paired with any iMovR ThermoDesk or Omega Desk models
- Continuous duty cycle with a 400 lb. user weight limit
- Power efficient design saves on electricity cost

Only \$1,499
