TecTern Lectern

Designed to customize

TecTern Technology Lectern

Customize your AV Power House

Interactive Presentation Control

Interactive presentations are now possible even in lecture halls, theatres, and other large-audience settings. Specify TecTern and add your AV support component preferences including:

- Open Concept Storage Compartment
- Pull-out shelves
- Microphone port rough-in
- Light and Timer
- Pre-drill for room control
- Touch Screen with integrated tilt and shelf
- And many more features

TecTern may be specified with a built-in, finger touch monitor, fully integrated into the unit. This allows presenters to control their large-screen presentations, eliminating the need for a mouse, remote or keyboard.

Available Finger Touch Monitor (TPMT19)

Dynamic Height Adjustment

Presenters can sit or stand at the TecTern commanding a full 12" range of powered height adjustment, controlled with the press of a finger. The Modesty Panel/cable manager moves with the TecTern top, maintaining a simple and pleasing appearance at any height, seated or standing. The electronic height adjustable center column makes TecTern an ideal choice for universal design and is A.D.A. compliant for wheelchair access.

Large Audience? Easy Does It

When technology is part of the lectern specification the TecTern Technology Lectern leads the way with design, features and options ready to meet the challenge. TecTern is perfect for presenters who need interaction with a large screen image. Control of the technology is right at hand and with the available finger touch monitor your finger is the mouse.

TecTern Technology Options

TecTern is built to be adaptive

Bi-fold work surface reveals standard laptop shelf and access to additional storage below deck.

Huge storage + cable management

TecTern's standard features include an inclined work surface (26" w x 24" d) with document rail. Remove the bi-fold work surface to access a laptop tray and ample storage space (1300 cu. in.) suitable for power bars, adapters, and lots of techno-gadgets. Additional storage below deck (800 cu. in.) offers even more flexibility for cable management.

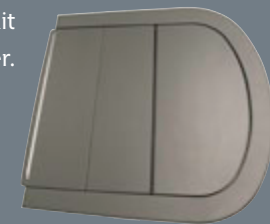

Standard Laptop Shelf with room for notes below. Adjustable height switch on the right.

Available Integrated Finger Touch Monitor Kit

To truly master the audience experience, a TeamBoard Finger Touch Monitor Kit is available. Control a laptop in the lower pull-out shelf with the touch of a finger. The Finger Touch Monitor can be adjusted to an angle that best suits the presenter's comfort. Included in the package is TeamBoard Draw touchscreen software for Windows, Mac and Linux.
