

Touchboards

PLUS Wireless Interactive Panel

UPIC

An entirely new
type of interactive board.

Slash your interactive whiteboard and installation costs and save thousands.

If you are looking to purchase or already own an interactive whiteboard, you know that those additional costs add up quickly. With UPIC, there are no surprises:

- **Installation:** UPIC boards set up in seconds with little or no cost to install. The leading competitors charge \$300 to \$500 just to install one board.
- **Portability:** A UPIC board can be hung on any magnetic surface, making it simple to transport. The leading competitor will charge you \$300 for a bulky floor stand.
- **Current whiteboard or blackboard removal:** Other manufacturers require you to remove or possibly ruin your existing boards by using unsightly and costly brackets; UPIC allows you to keep your options open while maintaining your black and white surfaces.
- **Power:** The UPIC board has no cords or cables.
- **Interactivity:** You interact with UPIC the same way you do with any interactive whiteboard. You write with the pen and you click with the mouse. Your PC based software experience will remain unchanged.
- **Shipping Costs:** The UPIC board costs only \$10 to ship, where others charge \$100 to \$200 and hope you do not have to ship the board back for repairs.

The panel does not require any cables or power, and a cordless pen transmits information to a PC via Bluetooth®.

The UPIC will convert your existing blackboard or whiteboard into an interactive board in seconds.

Being portable and wireless, the panel rolls up and can be quickly packed away in its carrying case along with its few accompanying items. With the provided markers and eraser, you can write and erase in the same manner as a regular whiteboard. Unlike other interactive whiteboards, its unique surface minimizes the reflection and glare of a projector making viewing projected images more comfortable.

Have dynamic interactive presentations whenever and wherever you like,
using the extremely portable and wireless UPIC.

UPIC

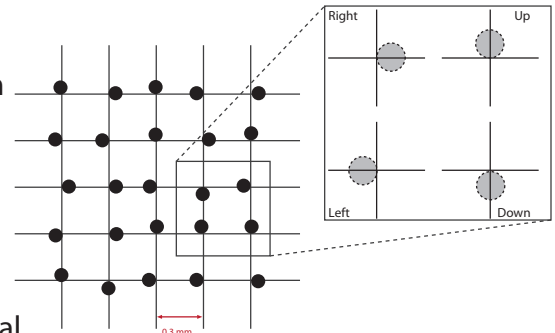

New technology for a new interactive experience.

The interactive surface:

To create this interactive surface, a patent-protected dot pattern from Anoto has been added to the UPIC writing surface. The pattern, virtually invisible to the naked eye, consists of numerous intelligent small black dots that can be read by the unique digital pen.

The pattern indicates the exact positions of the digital pen and the pen sends this information to your PC via Bluetooth®.

When you write over the projected image, the unique pen takes digital snapshots (more than 50 pictures per second) of the pattern. Every snapshot contains enough data to determine the exact position of the pen. The data is transferred via Bluetooth® in real time to your computer which in turn projects the writing and give you mouse control.

Quick and easy set-up:

- Simply unroll the UPIC and attach it to a whiteboard, chalkboard or similar surface.
- Project an image.
- Calibration is as quick as touching four targets with the digital pen.
- The UPIC program menu is intuitive and requires little training.

Specifications

Model Name	UPIC-56M	UPIC-64M	UPIC-W72M	
Type of Installation	Magnet sheet type	Magnet sheet type	Magnet sheet type	
External dimensions	W 45.7 x D 0.4 x H 34.1 inches W 1160 x D 11.3 x H 865 mm	W 52.4 x D 0.4 x H 39.2 inches W 1330 x D 11.3 x H 995 mm	W 64.2 x D 0.4 x H 42.1 inches W 1630 x D 11.3 x H 1070 mm	
Weight (Not including pen or accessories)	approx. 3.5 lb / 1.6 kg	approx. 4.6 lb / 2.1 kg	approx. 6.2 lb / 2.8 kg	
Panel	Size	W 44.5 x H 33.3 inches / W 1130 x H 845 mm	W 51.2 x H 38.4 inches / W 1300 x H 975 mm	W 63 x H 41.3 inches / W 1600 x H 1050 mm
	Projection area size	56 inches (4:3) Max	64 inches (4:3) Max	72 inches (16:9) Max
Reading system				
Anoto pattern n reading using Anoto pen				
Digital pen	Model Name	ADP-301		
	Power Supply	AAA alkali battery (1.5V) x 1		
	Interface	Conforming to Bluetooth® 2.0 class		
	Main unit weight	Approx. 0.1 lb / 40g (including battery)		
Usage Conditions	Operating time	During continuous drawing - approx. 5 hours; In standby - approx. 150 hours (with cap removed)		
	Temperature	32° ~ 104° / 0° C ~ 40° C		
	Humidity	30 ~ 85% (with no condensation)		
Interactive Mode	White screen mode	Yes		
	Overlay screen mode	Yes		
	Mouse mode	Yes		
	Functions	Pen color (8 colors) /Maker color (8 colors)/Eraser/Pen & eraser size selection/Insertion of pictures/Deleting of page contents / Screen mode selection/Printing/File input & output		
Whiteboard	Marker writing	Yes		
Accessories				
Digital pen x 1, Stylus for digital pen x 1, AAA alkali battery (1.5V) x 1, Markers (Black and Red x 1), Eraser x 1, Carrying Case x 1, User's manual(simple) x 1, Manual for digital pen x1, CD-ROM (UPIC utility , UPIC Touch&Draw , User's manual(detailed)(PDF)) x 1				
Computer Requirements	Compatible Operating Systems	XP (Home Edition / Professional Edition Service Pack 3 or later)/Vista 32-bit versions		
	Compatible computer types	Preinstalled models operating on one of the operating system above		
	CPU	Pentium 4 processor or later		
	Memory	512MB or greater		
	Hard disk	200MB or greater		
	Display resolution	1024 x 768 pixels or greater, High Color or greater		
	Devices	Bluetooth® adapter , standard computer USB port, CD-ROM drive		
	Compatible Bluetooth® stacks	Microsoft® Bluetooth® stack Broadcom's Widcomm® Bluetooth® software stack Toshiba Bluetooth® stack BlueSoleil Bluetooth® stack
