

3M™ Overhead Projector Models 9700/9750

Rugged enough for the road, yet stylish enough for professional presentations. The 3M™ Overhead Projectors Model 9700 and 9750 finish first in portable presentation technology. Five thousand lumens of light (4,300 lumens on the 3M Model 9700) allow presenters to switch from LCD projection panels to colorful transparencies. And when you're ready for the road, you can fold both models down into briefcase size quickly and easily. A hard-shell cover protects the projector during travel, while the carrying handle and lightweight design make it easy to transport from one location to the next. Powerful performance and portability make the 3M Model 9700 and 9750 the perfect tools for presenters on the move.

KEY FEATURES

- 5,000 lumens of light (4,300 on 3M Model 9700) make these overhead projectors perfect for use with LCD projection panels and color transparencies
- Both projectors fold into compact, easy-to-carry cases
- Simple to set up; quick release latches lock legs into place instantly
- Triplet projection lens improves image resolution and clarity
- Flip-in magnifier on 3M Model 9750 enlarges LCD panel images by 30%
- Dual power outlets allow you to connect LCD panel and a laptop
- High-low lamp intensity switch adjusts for your needs: high for LCD projection panels and full-color transparencies; low for other visuals and extended lamp life
- An extra lamp slips into place with the turn of a dial
- 11.25" x 11.25" projection stage offers large space for viewing overhead transparencies edge to edge
- Five-year manufacturer's warranty
- Hard-shell travel cover and carrying handle included
- Made in the U.S.A.

TECHNICAL SPECIFICATIONS

Optical Performance

- Lens: High-resolution triplet: 13.5" (342 mm) Flip-in magnifier included on 3M Model 9750
- Illumination: 5,000 lumens typical*(4,300 lumens on the 3M Model 9700)
- Stage aperture: 11.25" x 11.25" (286 mm x 286 mm)
- Stage temperature: 50°C

Lamp Description

- Lamp ejector: Yes
- Lamp changer: Yes — 2 lamps included
- Type: FXL
- Voltage: 82 volts
- Watts: 410 watts

Physical Characteristics

- Width: 14.2" (361 mm)
- Depth: 16.75" (425 mm)
- Height (top of head): 28" (711 mm)
- Height (folded): 6" (152 mm)
- Weight: 3M Model 9700 — 21.8 lbs. (9.9 kg.) Without cover - 19.6 lbs. (8.9 kg.)
- Weight: 3M Model 9750 — 22 lbs. (10 kg.) Without cover - 19.8 lbs. (9 kg.)

Electrical Requirements

- Voltage rating: 120V AC, 60 Hz
- Power cord length: 15' (4.6 m)
- Electrical outlets: 2
- Agency approval: UL/CUL
- International models available on Model 9700 with EVD lamp

Mechanical

- Lamp interrupt switch: Shuts off power to the lamp when switching lamps to prevent premature lamp failure
- Thermal protection circuit: Cuts power to the lamp if the projector exceeds safe operating temperature

Order Numbers

78-9236-5879-9 (3M Model 9700)
78-9236-6293-2 (3M Model 9750)

Accessories

- Lamp: FXL 410-watt projection lamp
78-6969-7947-1
- Magnifier: Enlarge images by 30% from LCD projection panel (included on Model 9750)
78-6969-8054-5
- Soft cover travel bag: Nylon bag with shoulder strap for easy transportation
78-6969-8053-7
- Universal dust cover: Clear vinyl cover protects overhead projector from dust; puncture and mildew resistant
78-6969-7216-1
